## TILE GROUT

***Bring out  
the color of your tile!***

**available in 23 colors**

A tile joint is to accommodate tile movement due to thermal deformation, substrate shrinkage, or tile expansion which could cause tiles to crack. Using ABC TILE GROUT will complete a lasting tile installation.

ABC TILE GROUT WATERPROOFING is essential to safeguard areas that are frequently or permanently immersed in water for lasting protection. Best used for lanai, terrace, kitchen, laundry area, shower, bathroom, pool & water features. ABC TILE GROUT WATERPROOFING with Bio-Tech System is an acrylic based tile grout additive. It makes tile grout waterproof, stain resistant and more durable for easy maintenance. It is specially formulated for direct mixing with ABC Tile Grout. It brings out the grout's color & greatly improves its abrasion resistance, bonding & flexural strength.
