SURFACE PREPARATION

The surface must be structurally stable, level and dry. Make sure the surface is clean and free from paint & contaminants such as dirt, dust, loose material, oils and chemicals.

APPLICATION GUIDE

1. Mixing
   Stir ABC Gypsum Putty briefly to attain a creamy, smooth and homogenous consistency. The mixture is ready-to-use.
   Note: Do not add water to dilute the consistency of the premixed putty. This could lead to cracking & excessive shrinkage.

2. Application
   Use several light strokes to cover regular application areas. If necessary, put a mesh tape on top of the crack or joint before applying the mixture. Build up a smooth, flush surface, allowing each coat to dry completely. Sand the final coat prior to finishing.

3. Finishing
   Follow the paint manufacturer’s instruction regarding priming and application of further paint finishes.

PACKAGING

5 kg plastic container and 28 kg plastic pail

STORAGE & SHELF LIFE

When stored in a cool dry place & in its original unopened packaging, ABC Gypsum Putty will remain usable seven months from date of manufacture.

WARRANTY

Due to variety of applications, different working methods and the various properties of bases, we cannot assume responsibility or liability with regard to the application of our products. Our guarantee and liability are restricted to the quality of our products at the time of acceptance of the customer of such products. In no case shall our liability extend beyond replacement of defective products, if any, found at the time of acceptance. For all deliveries and services, our General Sales Condition including warranties stipulated for each case are valid.
