Application thickness **0.5-2mm**

Colors: Gray & White

Water Resistant

- indoor & outdoor
- eco-friendly
- low VOC levels
- prevents mold & paint blistering

Ultra thin application

Application thickness **0.5-2mm**

Color: White

Zemcoat Skimcoat is a thin plastering mortar which perfectly smoothens concrete walls and ceilings before painting. It reduces construction cost by replacing 3 products: concrete neutralizer, patching compound & base coat.

Variants		Application Thickness	Coverage (approx.)
Original	25 kg	2mm	10 - 12.5m ²
		3mm	7 - 8m ²
		5mm	4 - 5m ²
Water Resistant	20 kg	0.5 - 1mm	20 - 40m ²
Super Fine		2mm	8 - 10m ²

Note: Calculation based on 1 - 1.2kg/m²/mm application thickness. Coverage may vary depending on substrate condition, application thickness and workmanship.
